BUYING - ANTI BIRD PERCH SYSTEM

Feral pigeons, descended from Rock Doves, are a part of our natural wildlife and are their presence is enjoyed by many - however, their ability to adapt to our urban environment makes it necessary to devise a means to deter these birds from landing and nesting on buildings. We strongly believe that this must be done without harming the birds, this can be ensured by using our PIGEON SPIKES which you will be pleased to find are recommended by the RSPB and PICAS.

BUILDING & HEALTH ISSUES

- Droppings cause damage to property
- Nests often constructed using rubbish
- Carcasses decompose on and in buildings
- Health issues arising from above include; food contamination sickness, skin irritations and allergic reactions.

PIGEON FACTS

- Pairs breed up to six times per year
- Lay two eggs at each breeding
- Availability of food controls numbers
- Roost and nest most anywhere sheltered
- 20% of people spell pigeon wrongly!
