

BUYING - DAMP PROOF COURSE CLOAKS & TRAYS

DORSEY & DPC

Dorsey offer a complete range of waterproofing systems and products, offering all the leading brands. With many years experience in supplying waterproofing materials to house builders and commercial development companies, you can expect us to understand both your needs, and the products available to ensure you keep the damp out of your buildings.

PREFORMED UNITS

It is widely accepted that Preformed Cloaks & Trays play an essential role in ensuring that a reliable and effective waterproofing solution is provided. It is virtually impossible to achieve satisfactory results by folding and sticking DPC on site. However they are often omitted from the build, risking serious damp problems for the builder at a later date - sometimes the issue is timing, sometimes it is cost, either way we can help you to get it right.

With support from all the leading manufacturers of waterproofing systems you can specify the make and type of DPC you wish to install, or alternatively, let us offer you the most cost effective solution to your individual situation.

Reading Depot & Head Office, Unit 34, Robert Cort Industrial Estate,
Britten Road (off Elgar Road), Reading, Berkshire. RG2 0AU

BUYING - DAMP PROOF COURSE CLOAKS & TRAYS

Dorsey choose VISQUEEN/ZEDEX and RUBEROID as our preferred suppliers of waterproofing systems, ensuring that we and you receive excellent quality, reliable deliveries and first class technical advice and support.

ANCILLARY PRODUCTS

To complement our range of DPC's (all of which are available in any standard width from our stocks) we also supply a selection of ancillary products: Fixing Strip, Double Sided Butyl Joint Tape, Joint Support Boards, Jointing Mastic & Adhesive and Waterproofing Tanking Solutions.

ZEDEX CPT HIGH PERFORMANCE DPC

This new generation DPC out performs all other flexible high performance DPC's and is designed to provide a new higher level of security and durability. Made from Co-Polymer Thermoplastic CPT uses the latest polymer technology, Zedex CPT has been accredited by the British Board of Agreement. With its high tear and puncture resistance (shown in tests to be many times stronger than pitch polymer DPC's) and it's compatibility with liquid DPMs and mastics Zedex CPT is proving to be a popular - and cost saving choice on many developments.

ZEDEX CPT HOUSE BUILDER DPC

With most of the advantages of the High Performance grade, this slightly lighter version provides a strong and reliable DPC for House Builders. This product has been designed for use in developments of not more than three storeys.

For the full listing of our range of DPC, Cloaks and Trays, please turn to page 14.
