

TECHNICAL SPECIFICATIONS SHEET

ALREFLEX 2L2 OEM

Basic Description

FOIL / DOUBLE BUBBLE INSULATION MEMBRANE, FOIL FACING ON BOTH SIDES.

High performance, waterproof thermal insulation membrane.

Main Applications

Roof insulation and roofing felt / sarking layer;

Wall insulation and vapour control for system build and portable buildings;

Floor insulation and damp-proof membrane;

General insulation for agricultural buildings e.g. to alleviate condensation build up in poultry sheds etc.

Thermal Insulation Performance

Example Application:

Roof Insulation

Thermal Resistance = $1.56\text{m}^2\text{K/W}$

Physical Properties

Roll Sizes: 1.2m, and 1.5m x 25m
 Other widths on request

For full installation details and product information refer please contact our Technical Department on 01582 450814.
